DETAILED ACTION

1. This Office Action is the answer to the Amendment filed on February 8, 2007, which paper has been placed of record in the file.

2. Claims 1, 3, 4 and 6 are pending in this application.

Allowable Subject Matter/Reasons for Allowance

3. Claim 1 is allowed over the prior arts cited records.

The closest prior art is:

Swart (US 6,347,306) discloses a computer-implemented method and system for automatically paying employees net pay immediately upon completion of a work segment provides time and attendance, human resource, payroll processing and banking computer systems interconnected via an on-line computer network to calculate net pay for each work segment completed the employee, in real-time and immediately upon entry of shift completion information. The system determines gross work segment pay based on the shift completion information and the employee's payment rate for the shift and then computes network segment pay by applying deduction information to the gross work segment pay. The network segment pay information is then sent to the banking computer system to allow the bank to provide the employee with immediate access to the network segment pay; preferably via direct deposit banking

Therefore, it is clear from the description of Swart's inventions that the prior art does not considered the possibility of: wherein said personal financial service provider is configured to electronically receive said employee funds directly from said worksite

employer based on said calculated payroll disbursement and configured to electronically disburse an after tax portion of said employee funds to a third party as payment for at least one of a good and service prior to allowing said employee to disburse remaining said employee funds via said access point, as included in claim 1.

4. Claims 3, 4, and 6 are allowed because they are dependent claims of the allowable independent claim 1 above.

Conclusion

- 5. Claims **1**, **3**, **4** and **6** are allowed.
